Subject: additional sampling for March/April

Happy Friday.

Just got a phone call from Dan Wall that EPA would like to pay for this additional sampling. Sites are yet to be firmed up (though it will probably still be 4 stations and include A55 and A68) and Dan is taking input on that. Peter, I forwarded your latest ideas to him. Please email him with any other ideas/opinions you may have on locations. We will firm up sites next week and begin sampling the first week of March and end sometime in April, to be determined by weather and runoff.

To Buck, Ray, and Barb, thank you very much for being willing to take on this extra work and funding if EPA was not able. It's much appreciated.

Have a great weekend.
